

Checklist for Applying for the Pfizer Research Prize

Category «Medical research: Oncology or Infectious Diseases/Immunology»

The application form allows the transfer of rights for the submission of a scientific research project carried out by multiple authors for the Pfizer Research Prize and the formal recognition of compliance with the Pfizer Research Prize regulations.

A research project will only be considered by the Pfizer Research Prize Foundation once the application is completed in full.

A full application includes the following documents:

- **Application form**, completed in full
- **Application cover letter**
- **Publication**
- **Additional data on the research project** that have been published on the Internet (figures and graphs)
- **Confirmation of acceptance** by the journal (if not yet published)
- **Summary** of max. half an A4 page

Instructions on submission of the research project:

- Only **complete applications will be accepted**.
- Incomplete applications and those received **after the deadline** (email receipt date) **will not be considered**.
- Please submit **all documents electronically in PDF format and named as follows**:
 - 1_Application Form_*[Name of first author]*.pdf
 - 2_Application Cover Letter_*[Name of first author]*.pdf
 - 3_Publication _*[Name of first author]*.pdf
 - 3a_Acceptance_*[Name of first author]*.pdf (if not yet published)
 - 3b_Additional Data_*[Name of first author]*.pdf (if applicable)
 - 4_Summary_*[Name of first author]*.pdf

Please submit your application by email to:

Pfizer Research Prize Foundation
